SANY KLEEN PLUS

DISINFECTANT SANITIZER

DÉSINFECTANT ASSAINISSANT

DESCRIPTION

Sany Kleen Plus makes the ultimate cleaner, disinfectant and deodorizer. This formula reduces the hazards of cross-contamination between environmental surfaces and controls mould and mildew and the odours that they emit. Kills 99.99% of bacteria/fungi/viruses.

USAGE

Areas of use: Vet Clinics, Dental Clinics, Medical clinics, Schools, Bathrooms and Exercise areas.

Directions for use: For use on hard, non-porous surfaces including floors, walls, countertops, appliances, tools, tables, handles. For disinfecting and sanitizing, dilute 16 mL of product to 1 L of water. Apply to surface with mop, cloth, sponge or trigger sprayer and allow surface to remain wet for 10 minutes before wiping or let dry. Rewet surface if necessary. Pre-clean heavily soiled areas. Prepare a fresh solution for each use.

For hard surfaces and/or objects that may come into direct contact with children at the mouthing stage of development, a rinse with potable water is recommended.

Remove all animals/poultry and their feed from premises prior to disinfection. Remove all heavy soil, such as urine and fecal matter, from hard surfaces and objects prior to disinfection. Empty all feeding and watering appliances prior to disinfection. Following disinfection, do not house animals/poultry until areas have been ventilated. All surfaces and/or objects that will contact feed or drinking water should be rinsed with potable water before reuse.

Avoid contact with food. For surfaces or objects that may come in contact with food, rinse surface prior to use.

This product is not to be used as a sterilant/high-level disinfectant on any surface or instrument that: (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

BIODEGRADABLE
OECD 301D

CODE: ENV502

DIN 02511126

AVAILABLE IN: 4 L, 20 L

APPLICATIONS

Toilet, sinks, counters, garbage

cans, locker rooms, bath area, exercise area,

hospitals

PROGRESSIVE CHEMISTRY

Our specially formulated sanitizer contains carefully selected biodegradable ingredients and is free of harmful phosphates to protect our waterways from toxic algal blooms.

SPECIFICATIONS

Physical form	Liquid
Colour	Yellow
Odour	Citrus
pH (direct)	10.5
Flammability	Not flammable

STORAGE

Store in a dry, cool, well-ventilated area

Do not allow to freeze

Store away from direct sunlight and heat

Store in original container with closed lid, away from incompatible materials such as strong acids.

SHELF LIFE: 1 year minimum from manufacture.

PACKAGING

This packaging is made from high density polyethylene (HDPE) one of the most commonly and easily recycled plastics!

Concentrated products save on packaging, energy, and emissions associated with transport. Instead of shipping mostly water, we are sending you a super concentrated product that you simply dilute with tap water. This allows us to pass the savings on to you!

AVAILABLE IN: 1L, 4L, 20L

PRECAUTIONS

Wash thoroughly after handling. For more information or Safety Data Sheets (SDS) please contact us or see our website.
